## ***Where does responsibility to others fit in to our vision for Christ Church?***

***Could one of the biggest contributions to reducing our impact as a church on the climate be to cut down on our energy use? Please consider that we are currently spending over £10,000 of your church giving per year heating and lighting the two buildings. One of our main savings would come if and when we can put a new roof on the Welcome Centre. We can also help by switching off lights.***

***Fabric committee have also been discussing plans with the architect and Diocesan Advisory Committee to put more energy saving lighting into the Welcome Centre that we will further reduce the amount of energy we use in the building. So please continue to pray for the best plans and that we can raise the funding to offer the community better facilities AND help the planet.***

The **emPower** prayer meeting on 17th October at St Thomas's Philadelphia will be a joint event with SYPE (South Yorkshire Prayer Event), a 24 hour prayer meeting from **7:30 pm on Friday 17th to 7:30 pm on Saturday 18th.** emPower will open the sessions on Friday evening and close them on Saturday afternoon. Prayer is such an important part of our spiritual armour. So please **come along for a couple of hours** for an inspiring time of worship and intercession for Sheffield and South Yorkshire: details
