An island in the South Pacific has a problem. Scientists, farmers, oil magnates, climate warriors, prophets, mothers, journalists and others just like you and me – we're all in the mix and hungry for a recipe of hope. In the struggle over power, some sound the warming bell, some blow hot and cold, while others make a pudding of the planet. Vivid, sharp and deliciously entertaining, **BAKED ALASKA** serves up the realities of climate change with flair and clarity about the temperatures involved.
